

Co-creation of Inclusive Sustainable
Tourism Itineraries and Packages
from Coastal to Inner Areas

For a guided tour

Plan the **appropriate part of the day for the tour**, as dogs have specific needs and different schedules from ours. **Avoid** tours during the **hottest** part of the day and opt for the evening instead.

Make the tour safe for dogs.

Ensure the tour stops at places with **water fountains** so that dogs can stay hydrated.

Incorporate **breaks** **between explanations and walks**, alternating them.

The tour location is very important, and **it's not advisable to pass by busy areas** like roads, bike paths, or crowded pedestrian areas.
