Shuttle operates as a dual-role **travel agency and destination management company**, specializing in unique, lesser-known areas and experiences such as wine tastings, culture, and sustainable authenticity. The focus is on physically bringing visitors to the less developed areas, particularly outside the main season, providing a distinctive and off-the-beaten-path travel experience.

Shuttle will take the lead in WP1, titled "**Co-creation of self-guided inclusive sustainable itineraries, packages, and related training sessions.**" Drawing on their extensive experience and training destination management company personnel, Shuttle will be the main responsible for crafting innovative itineraries and packages.

With their brand **Taste Dalmatia**, the main focus is on:

Family businesses

Wineries

Producers of souvenirs

Historical Sites

Cultural Sites
