SCIENTIFIC REPORTING OF THE IN-DEPTH ANALYSIS ON ADRIATIC REEFS

**Activity 5.1** - This task represents the follow up of WP3 and WP4. After the in-depth analysis of the legal framework, the possible stakeholders' involvement, the Case studies analysis and their underwater monitoring, it will be possible to **summarize the overall results achieved in a final report.**

- D3.2.1) analysis of legal frameworks
- D3.5.1) list of stakeholders
- D3.5.2) B2B meetings with stakeholders
- D3.5.3) stakeholder analysis
- D4.1.6) data obtained from Case Studies in Italy
- D4.2.4) data obtained from Case Studies in Croatia
- D4.3.1) report of monitoring phase
- D4.3.2) analysis comparison of the obtained results

**D5.1.2- Final report of the analysis results**

SCIENTIFIC REPORTING OF THE IN-DEPTH ANALYSIS ON ADRIATIC REEFS

Activity 5.1 - The methodology of the study will take in consideration the need of matching between:

- current legislation,
- data analysis,
- analysis of strengths, weakness and potential economic value for each economic sector.

**SCIENTIFIC REPORTING OF THE IN-DEPTH ANALYSIS ON ADRIATIC REEFS**

Activity 5.1 - A meeting between partners is organized at the beginning of this task in order to define the way forward. During this meeting relevant decisions will be taken for the methodology and procedure. External experts will support the PPs in the definition of the methodology.

**SCIENTIFIC REPORTING OF THE IN-DEPTH ANALYSIS ON ADRIATIC REEFS**

Activity 5.1 - A meeting between partners is organized at the beginning of this task in order to define the way forward. During this meeting relevant decisions will be taken for the methodology and procedure. External experts will support the PPs in the definition of the methodology.

For ex. in case of the "Wild animals and their outputs" ES, the capacity indicator accounts for the "Fish stock" which generates the flow indicator "Harvested fish and shellfish", and finally the "Income of fishermen" as benefit indicator

### SCIENTIFIC REPORTING OF THE IN-DEPTH ANALYSIS ON ADRIATIC REEFS

**Activity 5.1** - A meeting between partners is organized at the beginning of this task in order to define the way forward. During this meeting relevant decisions will be taken for the **methodology and procedure**. External experts will support the PPs in the definition of the methodology.

<p><b>Discussion about Activities 5.2. and 5.3.</b></p>	<ul style="list-style-type: none"> <li>Giulia Cillani shared a padlet where each partner had chosen a few sectors to study in detail to provide information for the final project documents.</li> </ul> 
<p><b>Closure of the meeting</b></p>	<ul style="list-style-type: none"> <li>Giulia Cillani closed the meeting.</li> <li>The main idea is to start thinking about the organization of the work about the study for each sector that will provide informations for final documents</li> <li>In the next days will be decided when will be organized the 5th Steering committee in cooperation with Diego and OGS.</li> </ul>
