7th DigLogs Newsletter

DigLogs newsletter for Transport Operators and Authorities

Discover Analysis of Innovations for Deployments in Pilot Projects in Croatia and Italy!

Diglogs has completed its assessment of the Strengths, Weaknesses, Opportunities and Threats (SWOT) of each of the 11 primary innovations for deployment, in pilot projects coming soon to the Croatia and Italy Area. These innovations are grouped into three main groups, with many inter-connections.
The deployment across the different pilots with work scheduled to begin in the fall and results to be released in the first half of 2021.

The infographic below shows the link between the 11 innovations and the 7 pilot actions of the DigLogs project.
This is the seventh edition of Newsletter series of the DigLogs project!

DigLogs is a European project funded by the INTERREG Italy – Croatia CBC Programme priority axis 4 - Maritime transport that aims to create technological solutions, models and plans to establish the most advanced digitalized logistic processes for multimodal freight transport and passengers’ services in the Italy-Croatia area. This project will have a significant impact in terms of diffusion and effectiveness of digitalized services and ICT support for the quality, safety and environmental sustainability. In the E-newsletter project, you will find interesting information on the latest developments and upcoming events of the project.

Stay Tuned for our Next DigLogs newsletter for Transport Operators and Authorities Scheduled for August 2020!

Stay tuned for more updates on Italy-Croatia perspectives and implementations.
