

DIH INNOVAMARE PROJECT

D. 2.3.2. Signed collaboration agreements (MoUs)

Project identification**Project ID:** ITHR0200416**Name of the lead partner organisation:** Hrvatska gospodarska komora**Name of the lead partner organization in English:** Croatian Chamber of Economy**Project title:** Cross-border digital innovation Hub for innovative marine technology**Project acronym:** DIH InnovaMare**Programme priority:** Sustainable growth in the blue economy**Specific objective 1.1:** Developing and enhancing research and innovation capacities and the uptake of advanced technologies**Project duration in months:** 30**Work package:** WP2 - Innovation network for development of innovative marine technologies for sustainable blue economy**Expected date:** P5

Activity description: Through Innovamare project, we concluded that the main problem of collaboration between science and companies is the lack of information and understanding of what science can do and what it is offering to companies. Best way to improve this is to bring companies directly to scientific research institutions and scientists to companies so they can understand first-hand the needs and challenges. The main challenge that companies are facing is the lack of time to find the right partner in scientific research institutions for their needs. They are not aware of all expertise infrastructure available and of the expertise that could be offered to them. So, in this way, we are taking them to the institutions who will show them what they can do, based on the needs of companies. We will organize 2 study visits, one in each country and sign 10 collaboration agreements between organizations involved in study visits. We will involve stakeholders detected or involved in other activities of the project for continuous collaboration inside of the project. We will have open application process for participation of SMEs on Mairos platform – through the application form. One of the study visits may be carried out in collaboration with other standard Priority 1 projects in order to create a joint annual event between the projects approved on this topic. Participation must involve at least two PPs and two SMEs involved in the project activities. Responsible partners for this activity are CCE and UCV.

Partner responsible: CCE**Dissemination level:** CO - Confidential**Status:** Final**Version:** V1**Date:** 31 July 2026

1. Introduction

This deliverable (D. 2.3.2.) presents the collaboration agreements – Memorandums of Understanding (MoUs) signed between the project partners of the DIH InnovaMare project and a number of external entities in order to indicate their joint commitment to carrying out specific agreed activities aimed at fostering stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

DIH InnovaMare – Cross-border digital innovation Hub for innovative marine technology – is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021. – 2027.). The project aims to promote innovation, digitalisation and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighbouring countries' innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation/application in the marine and maritime sectors.

2. Overview of the signed collaboration agreements - MoUs

In accordance with the stipulated project regulations, a total of 10 collaboration agreements – Memorandums of Understanding (MoUs) were signed. The signatories are indicated below:

1. *LP1 CCE* signed three separate MoUs, respectively with *Marinetek LLC.*, *Innovamare Technologies LLC* (private companies) and with the *Digital Innovation Hub Innovamare* (NGO)
2. *PP3 UNIZD* signed two separate MoUs, in particular, with the *Šibenik University of Applied Sciences* (scientific and higher education institution) and with *Zadar Energija LLC* (private company)
3. *PP2 ARTI* signed a MoU with *the Apulian Confederation of Craft Trades and Small-and Medium-Sized Enterprises (CNA Puglia)*, a regional non-governmental organisation
4. *PP8 UCV* signed four separate MoUs, respectively with *SITA Compositi LLC*, *Sea the Change LLC* (private companies with social vocation), *the Chamber of Commerce of Venice Rovigo* (public business promotion entity) and *Venicepromex LLC* (business internationalisation agency)

Each collaboration agreement clearly lists the specific roles and responsibilities of the signatories. (see the specimens in section 4 of this deliverable).

3. Conclusion

The signed collaboration agreements – Memorandums of Understanding (MoUs) formally confirmed the signatories' intention to engage in a dynamic cooperation with the goal of jointly carrying out specific activities conducive to strengthening innovation, development and adoption of new technologies, digitalisation and sustainability at the cross-border level between Italy and Croatia. Such actions are aimed at enhancing the links between relevant innovation ecosystems, promoting knowledge exchange, technology transfer, as well as providing new opportunities for a wider access to funding mechanisms that could be used to finance future cross-border initiatives. The general goal is to create a thriving, resilient innovation ecosystem uniting stakeholders on both shores of the Adriatic Sea and contributing to an increased welfare for the respective littoral communities.

4. Specimens of the signed Memorandums of Understanding (MoUs)

Memorandum of Understanding (MoU)

Between CROATIAN CHAMBER OF ECONOMY (CCE) and MARINETEK ADRIATIC D.O.O.

1. Background and Purpose

This Memorandum of Understanding ("MoU") establishes a framework for cooperation between the Croatian Chamber of Economy and Marinetek Adriatic d.o.o. in connection with the DIH InnovaMare project financed by Interreg Italy – Croatia 2021 – 2027.

DIH InnovaMare - Cross-border digital innovation Hub for innovative marine technology - is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021-2027). The project aims to promote innovation, digitalization, and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighboring countries' innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation in the marine and maritime sectors. application.

2. Scope of Cooperation

The DIH InnovaMare project led to this cooperation and conditioned the signing of this Memorandum of Understanding. The Parties are entering into it to indicate their shared commitment to carrying out specific agreed activities to foster stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

3. Roles and Responsibilities

Croatian Chamber of Economy shall:

- Promote opportunities for participation in cross-border innovation, research, and technology transfer initiatives in the Blue Economy.
- Support the dissemination of information on funding opportunities, innovation services, and capacity-building programmes relevant to marine and maritime technologies.
- Encourage knowledge exchange, matchmaking activities, and participation in events that strengthen collaboration between industry and research.
- Promote the visibility of the cooperation through its communication channels where appropriate.

Marinetek Adriatic d.o.o. shall:

- Promote opportunities for participation in cross-border innovation, research, and technology transfer initiatives in the Blue Economy.

- Support the dissemination of information on funding opportunities, innovation services, and capacity-building programmes relevant to marine and maritime technologies.
- Encourage knowledge exchange, matchmaking activities, and participation in events that strengthen collaboration between industry and research.
- Promote the visibility of the cooperation through its communication channels where appropriate.
- Maintain regular communication to review progress and identify new areas of mutual interest.

4. Non-Binding Nature and Financial Arrangements

This Memorandum of Understanding (MoU) is non-legally binding and does not create any financial or contractual obligations between the Parties, unless expressly agreed otherwise in writing.

5. Duration and Termination

This MoU shall enter into effect on the date of the last signature and shall remain valid for a period of two years, unless terminated earlier by the Party upon 30 days' prior written notice.

6. Confidentiality and Visibility

Each Party agrees to maintain the confidentiality of any proprietary or sensitive information received from the other Party. The Parties jointly commit to process such information in accordance with the EU Regulation 2016/679 on General Data Protection (GDPR). Both Parties commit to complying with DIH InnovaMare Project's communication and visibility guidelines, ensuring consistency in external communications. Any use of logos, trademarks, or project branding in promotional or dissemination activities shall be carried out in accordance with Interreg Programme regulations.

7. Intellectual Property

Any intellectual property arising from activities conducted under this MoU shall be duly protected. The specific terms and conditions governing the ownership, use, and protection of such intellectual property shall be established through mutual written agreement between the Parties.

8. Governing Principles

This MoU reflects the Parties' mutual intent to collaborate and does not constitute a legally binding contract. Any disputes arising from its interpretation or implementation shall be settled amicably through dialogue and mutual consultation between the Parties.

9. Communication between Parties

For the implementation of this Memorandum of Understanding, the Parties will establish effective communication channels. Indicated below is the contact information for each Party:

Croatian Chamber of Economy, Rooseveltov trg 2, 10000 Zagreb, Croatia and

Marinetek Adriatic d.o.o., Draga 2, 22 000 Šibenik, Croatia

Periodic coordination meetings will be held between the Parties to ensure the smooth and timely implementation of the activities defined in this Memorandum of Understanding.

10. Amendment

This MoU may be amended or modified by mutual written consent of the Parties.

11. Signatures

Neither Party shall be liable to the other for any indirect or consequential losses. The total aggregate liability of either Party under this Agreement shall not exceed the total amount paid or payable under this Memorandum of Understanding.

Memorandum of Understanding (MoU)

Between CROATIAN CHAMBER OF ECONOMY (CCE) and INNOVAMARE TECHNOLOGIES D.O.O.

1. Background and Purpose

This Memorandum of Understanding ("MoU") establishes a framework for cooperation between the Croatian Chamber of Economy and Innovamare Technologies d.o.o. in connection with the DIH InnovaMare project financed by Interreg Italy – Croatia 2021 – 2027.

DIH InnovaMare - Cross-border digital innovation Hub for innovative marine technology - is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021-2027). The project aims to promote innovation, digitalization, and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighboring countries' innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation in the marine and maritime sectors. application.

2. Scope of Cooperation

The DIH InnovaMare project led to this cooperation and conditioned the signing of this Memorandum of Understanding. The Parties are entering into it to indicate their shared commitment to carrying out specific agreed activities to foster stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

3. Roles and Responsibilities

Croatian Chamber of Economy shall:

- Coordinate the implementation of the activities assigned under this Agreement,
- Lead communication and dissemination activities towards companies, business support organizations, public authorities, and other relevant stakeholders.
- Organize and support workshops, networking events, training sessions, study visits, and awareness-raising activities.
- Facilitate the engagement of SMEs, industry representatives, and innovation ecosystem actors in project activities.
- Promote project results and contribute to their long-term sustainability and capitalization.

Innovamare technologies shall:

- Provide technical expertise and support for the development, testing, and validation of innovative marine and maritime technologies.
- Participate in the design and implementation of pilot activities, demonstrations, and proof-of-concept initiatives.
- Support the transfer of research results into market-oriented products and services.

- Contribute to the development, testing, and deployment of digital solutions, including AI, robotics, autonomous systems, sensors, and other advanced technologies for the blue economy.
- Share technical knowledge and best practices with the Parties through workshops, training sessions, and mentoring activities.
- Contribute to the dissemination, exploitation, and sustainability of project results through the DIH InnovaMare innovation ecosystem.

4. Non-Binding Nature and Financial Arrangements

This Memorandum of Understanding (MoU) is non-legally binding and does not create any financial or contractual obligations between the Parties, unless expressly agreed otherwise in writing.

5. Duration and Termination

This MoU shall enter into effect on the date of the last signature and shall remain valid for a period of three years, unless terminated earlier by the Party upon 30 days' prior written notice.

6. Confidentiality and Visibility

Each Party agrees to maintain the confidentiality of any proprietary or sensitive information received from the other Party. The Parties jointly commit to process such information in accordance with the EU Regulation 2016/679 on General Data Protection (GDPR). Both Parties commit to complying with DIH InnovaMare Project's communication and visibility guidelines, ensuring consistency in external communications. Any use of logos, trademarks, or project branding in promotional or dissemination activities shall be carried out in accordance with Interreg Programme regulations.

7. Intellectual Property

Any intellectual property arising from activities conducted under this MoU shall be duly protected. The specific terms and conditions governing the ownership, use, and protection of such intellectual property shall be established through mutual written agreement between the Parties.

8. Governing Principles

This MoU reflects the Parties' mutual intent to collaborate and does not constitute a legally binding contract. Any disputes arising from its interpretation or implementation shall be settled amicably through dialogue and mutual consultation between the Parties.

9. Communication between Parties

For the implementation of this Memorandum of Understanding, the Parties will establish effective communication channels. Indicated below is the contact information for each Party:

Croatian Chamber of Economy, Rooseveltov trg 2, 10000 Zagreb, Croatia

Innovamare technologies d.o.o., Milutina Barača 60, 51000 Rijeka, Croatia

Periodic coordination meetings will be held between the Parties to ensure the smooth and timely implementation of the activities defined in this Memorandum of Understanding.

10. Amendment

This MoU may be amended or modified by mutual written consent of the Parties.

Memorandum of Understanding (MoU)

Between
CROATIAN CHAMBER OF ECONOMY (CCE) and DIGITAL INNOVATION HUB INNOVAMARE (DIH Innovamare)

1. Background and Purpose

This Memorandum of Understanding (“MoU”) establishes a framework for cooperation between the Croatian Chamber of Economy and DIH Innovamare in connection with the DIH InnovaMare project financed by Interreg Italy – Croatia 2021 – 2027.

DIH InnovaMare - Cross-border digital innovation Hub for innovative marine technology - is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021-2027). The project aims to promote innovation, digitalization, and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighboring countries' innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation in the marine and maritime sectors. application.

2. Scope of Cooperation

The DIH InnovaMare project led to this cooperation and conditioned the signing of this Memorandum of Understanding. The Parties are entering into it to indicate their shared commitment to carrying out specific agreed activities to foster stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

3. Roles and Responsibilities

Croatian Chamber of Economy shall:

- Coordinate the implementation of the activities assigned under this Agreement,
- Lead communication and dissemination activities towards companies, business support organizations, public authorities, and other relevant stakeholders.
- Organize and support workshops, networking events, training sessions, study visits, and awareness-raising activities.
- Facilitate the engagement of SMEs, industry representatives, and innovation ecosystem actors in project activities.
- Promote project results and contribute to their long-term sustainability and capitalization.

DIH Innovamare shall:

- Provide technical and innovation support for the implementation of project activities.
- Coordinate and facilitate the participation of research organizations, technology providers, startups, and innovation experts.

- Organize and support demonstrations, pilot activities, technology testing, and validation of innovative solutions.
- Provide scientific and technical expertise in the development and implementation of project outputs.
- Contribute to the design and delivery of training programmes, mentoring activities, and knowledge transfer actions.
- Support study visits, workshops, and networking events.
- Ensure the availability of appropriate facilities, equipment, and innovation infrastructure where applicable.
- Contribute to the dissemination, exploitation, and sustainability of project results through the DIH InnovaMare innovation ecosystem.

4. Non-Binding Nature and Financial Arrangements

This Memorandum of Understanding (MoU) is non-legally binding and does not create any financial or contractual obligations between the Parties, unless expressly agreed otherwise in writing.

5. Duration and Termination

This MoU shall enter into effect on the date of the last signature and shall remain valid for a period of three years, unless terminated earlier by the Party upon 30 days' prior written notice.

Memorandum of Understanding (MoU)

Between

The Regional Agency for Technology, Technology Transfer and Innovation of Puglia Region (ARTI) – a regional agency under the Italian public law
and

The Apulian Confederation of Craft Trades and Small-and Medium-Sized Enterprises (CNA Puglia) non-profit organization registered in Italy

Date: 24/07/2026

1. Background and Purpose

This Memorandum of Understanding (“MoU”) establishes a framework for cooperation between ARTI and CNA Puglia in connection with the DIH InnovaMare project financed by Interreg Italy – Croatia 2021 – 2027.

DIH InnovaMare - Cross-border digital innovation Hub for innovative marine technology - is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021-2027). The project aims to promote innovation, digitalization, and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighboring countries’ innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation in the marine and maritime sectors. application.

2. Scope of Cooperation

The DIH InnovaMare project led to this cooperation and conditioned the signing of this Memorandum of Understanding. The Parties are entering into it to indicate their shared commitment to carrying out specific agreed activities to foster stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

Specifically, this cooperation aims to bridge the gap between scientific research and the private sector by translating marine archaeology and environmental data into sustainable economic value within the Marine Protected Area (MPA) of Porto Cesareo. The Parties commit to leveraging cross-border synergies to promote digital and green transformation, enhance local business capabilities through technology transfer, and develop innovative, low-impact sustainable tourism models that safeguard the underwater cultural and natural heritage of the Adriatic and Ionian seas.

3. Roles and Responsibilities

ARTI shall:

Act as the institutional facilitator for the private-scientific sector collaboration, leveraging its regional networks to connect scientific research institutions (universities and research centers) specializing in marine technologies and underwater archaeology with the private sector.

Support the integration of Apulian 4-helix stakeholders into the DIH InnovaMare cross-border ecosystem by promoting technology transfer models, mapping regional innovation capabilities, and transforming scientific knowledge into scalable, market-ready services for the sustainable Blue Economy.

Facilitate the regional and cross-border networking strategy by co-organizing and promoting participation in institutional events, workshop, and exchange of good practices between Italy and Croatia.

Align the objectives of this MoU with regional innovation policies (e.g., Smart Specialization Strategy - S3) and provide guidance to the Parties on strategic funding opportunities, optimizing the use of European, national, and regional funds dedicated to the Blue Economy and ecological transition.

CNA Puglia shall:

Act as a strategic bridge for technology transfer, facilitating the conversion of scientific data on underwater archaeological sites into innovative services for micro, small, and medium-sized enterprises (MSMEs).

Foster the green transition of local maritime services by supporting the artisanal shipbuilding sector in adopting eco-friendly, zero-emission propulsion systems (electric/solar) for sustainable visitor transport within the Marine Protected Area of Porto Cesareo.

Promote digital innovation and accessibility by encouraging ICT and digital craft enterprises to develop advanced Virtual Reality (VR), Augmented Reality (AR), and edutainment solutions, ensuring the "land-based" enjoyment of submerged heritage.

Drive the upskilling and diversification of the local coastal economy by organizing training and qualification paths to convert traditional small-scale fisheries into pescatourism/itinerary-tourism and transform local diving centers into certified guides for underwater cultural heritage.

Facilitate the active participation of local economic stakeholders in cross-border innovative networks, including study visits (e.g., to Zadar and Šibenik), training sessions, science fairs, and international matchmaking events.

Provide specialized consultancy and technical assistance to local MSMEs to improve their access to regional, national, and European funding (e.g., Interreg, Blue Economy funds) dedicated to green and digital innovation.

4. Non-Binding Nature and Financial Arrangements

This Memorandum of Understanding (MoU) is non-legally binding and does not create any financial or contractual obligations between the Parties, unless expressly agreed otherwise in writing.

5. Duration and Termination

This MoU shall enter into effect on the date of the last signature and shall remain valid for a period of 24 months, unless terminated earlier by the Party upon 15 days' prior written notice.

6. Confidentiality and Visibility

Each Party agrees to maintain the confidentiality of any proprietary or sensitive information received from the other Party. The Parties jointly commit to process such information in accordance with the EU Regulation 2016/679 on General Data Protection (GDPR). Both Parties commit to complying with DIH InnovaMare Project's communication and visibility guidelines, ensuring consistency in external communications. Any use of logos, trademarks, or project branding in promotional or dissemination activities shall be carried out in accordance with Interreg Programme regulations.

7. Intellectual Property

Any intellectual property arising from activities conducted under this MoU shall be duly protected. The specific terms and conditions governing the ownership, use, and protection of such intellectual property shall be established through mutual written agreement between the Parties.

8. Governing Principles

This MoU reflects the Parties' mutual intent to collaborate and does not constitute a legally binding contract. Any disputes arising from its interpretation or implementation shall be settled amicably through dialogue and mutual consultation between the Parties.

9. Communication between Parties

For the implementation of this Memorandum of Understanding, the Parties will establish effective communication channels. Indicated below is the contact information for each Party:

Memorandum of Understanding (MoU)

Between

Unioncamere del Veneto, association established by the Chambers of Commerce of the Veneto Region, set up pursuant to Article 6 of Law 580/93 and subsequent em., governed by public law, with its registered office at Via delle Industrie 19/D, 30175 Marghera – Venice (Italy), Fiscal Code No. 80009100274 and VAT No. 02406800272, represented by its Secretary General, Mrs Valentina Montesarchio

And

SITA Compositi srl, a private company with a social vocation dedicated to support sustainability in the Blue Economy, with registered office in Chamber of Commerce of Treviso - Belluno, Piazza Borsa 3b, VAT n. 02292830185;

1. Background and Purpose

This Memorandum of Understanding ("MoU") establishes a framework for cooperation between Unioncamere Veneto and SITA Compositi srl in connection with the DIH InnovaMare project financed by Interreg Italy – Croatia 2021 - 2027

DIH InnovaMare - Cross-border digital innovation Hub for innovative marine technology - is a cross-border initiative funded by the Interreg Italy-Croatia Program (2021-2027). The project aims to promote innovation, digitalization, and sustainability within the Adriatic Sea region. It tackles key challenges, including limited cooperation between neighboring countries' innovation ecosystems, restricted access to funding for innovative initiatives, and the gap between the development of new technologies and their effective implementation in the marine and maritime sectors. application.

2. Scope of Cooperation

The DIH InnovaMare project led to this cooperation and conditioned the signing of this Memorandum of Understanding. The Parties are entering into it to indicate their shared commitment to carrying out specific agreed activities to foster stronger cross-border cooperation in the Blue Economy between Italy and Croatia.

3. Roles and Responsibilities

Unioncamere Veneto shall:

- Share with the Chamber of Commerce outputs, relevant tools, results, methodologies, and best practices;

- Keep SITA Compositi srl informed about further developments and/or capitalizations;
- Cooperate in promoting and enhancing the local blue economy, as well as the companies and stakeholders involved.

SITA Compositi srl shall:

- Cooperate in the dissemination and capitalization of DIH InnovaMare outputs;
- Involve Unioncamere Veneto in specific actions and projects directed to the blue economy sector;
- Share knowledge and best practices with Unioncamere Veneto

4. Non-Binding Nature and Financial Arrangements

This Memorandum of Understanding (MoU) is non-legally binding and does not create any financial or contractual obligations between the Parties, unless expressly agreed otherwise in writing.

5. Duration and Termination

This MoU shall enter into effect on the date of the last signature and shall remain valid for a period of three years, unless terminated earlier by the Party upon 60 days' prior written notice.

6. Confidentiality and Visibility

Each Party agrees to maintain the confidentiality of any proprietary or sensitive information received from the other Party. The Parties jointly commit to process such information in accordance with the EU Regulation 2016/679 on General Data Protection (GDPR). Both Parties commit to complying with DIH InnovaMare Project's communication and visibility guidelines, ensuring consistency in external communications. Any use of logos, trademarks, or project branding in promotional or dissemination activities shall be carried out in accordance with Interreg Programme regulations.

7. Intellectual Property

Any intellectual property arising from activities conducted under this MoU shall be duly protected. The specific terms and conditions governing the ownership, use, and protection of such intellectual property shall be established through mutual written agreement between the Parties.

8. Governing Principles

This MoU reflects the Parties' mutual intent to collaborate and does not constitute a legally binding contract. Any disputes arising from its interpretation or implementation shall be settled amicably through dialogue and mutual consultation between the Parties.

9. Communication between Parties

For the implementation of this Memorandum of Understanding, the Parties will establish effective communication channels. Indicated below is the contact information for each Party:
