MC Written Procedure n° 4/2025

30th July – 22nd August 2025

In compliance with art. 7 of the Rules of Procedure, the **Monitoring Committee** has **approved** the following item:

- **ITEM 1** – ID ITHR0200255: **IN4BLUE** Request for **project modification**.

The changes were requested to improve the effectiveness of certain activities and make them more suitable for the people involved:

- The scheduled training event has been changed into a **cross-border workshop**, which will allow participants from different countries to share knowledge and ideas;
- Creative workshops, originally designed as hackathons, became **co-creation and co-development workshops**, which are more suitable for the target group.

As a consequence, a **new investment** has been introduced in three key activities:

- Creative laboratories;
- Workshops;
- Residency programme (an international internship business incubation program aimed at promoting new ideas in the targeted areas).

These activities involve teamwork, mentoring, and problem-solving, so they need flexible and well-equipped spaces.

Finally, these major changes required the consequent alignment of the Project Outputs and the Project Application Form of all sections referring to the above-mentioned activities, in order to ensure consistency.
