

## PROGRAMMING TASK FORCE

10th MEETING – 11th NOVEMBER 2021 *online*

---

### *Main decisions:*

---

#### **1. 2021/2027 Interreg VI A Italy-Croatia Programme's budget allocation per PA**

The Task Force acknowledges preliminary considerations and background information related to Interreg VI A Italy-Croatia 2021/2027 Programme budget. This includes projections of three illustrated scenarios, presented and proposed for selection. Both national delegations consider the Scenario C “Merged” (potential/stakeholder) as the most suitable one, which is consequently approved.

While acknowledging the choice of the delegations, the European Commission needs to carry out an internal double-check on the correctness of the calculation made on scenario C “merged” and on compliance with the constraints imposed by the regulations (art. 15 Reg. “common provisions”).

#### **AOB - Any Other Business**

- The Task Force acknowledges that the calculation and management of the technical assistance in the next Programme will be discussed during the next Task Force meeting (no. 11).
- The Task Force acknowledges that the European Commission will provide more information about the contents and how to fill in annex 3a for operations of strategic importance (OSI).
- The Task Force confirms the date of the next 11th meeting to be held on 15.12.2021 (all day) and on the contents of the meeting as suggested by the Managing Authority.
