

# What is ACTION Project?

ACTION is a cross-border project under 2021 – 2027 Interreg Italy-Croatia programme, designed to protect and restore marine and coastal environment through innovative Nature Based Solutions and collaboration.

## Our Goals

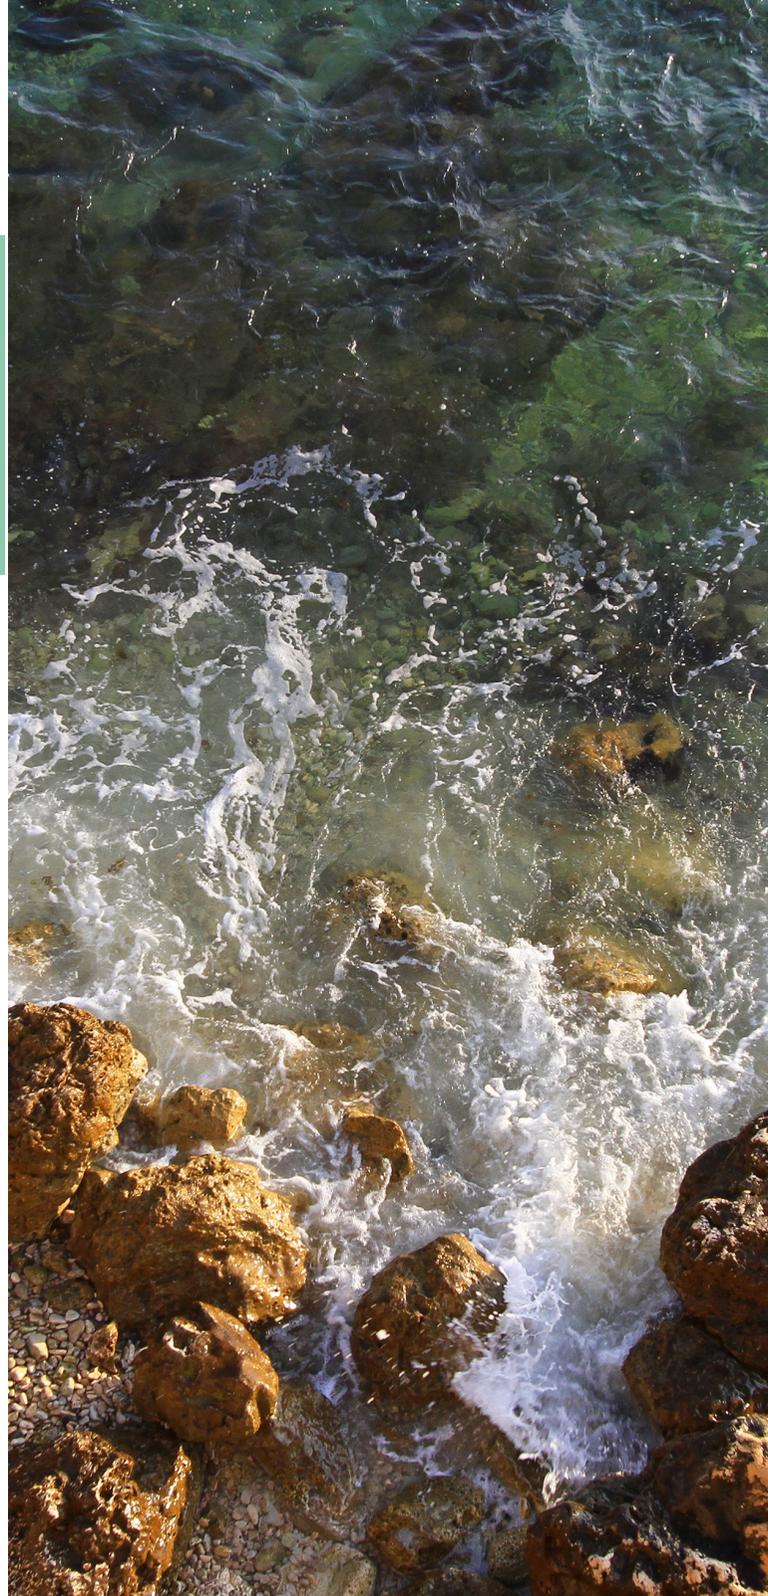

**Managing environmental risks** linked to climate change

**Strengthening coastal resilience** to prevent disasters

**Preserving marine biodiversity** through better monitoring and sustainable actions

**Fostering cooperation** between public and private sectors to safeguard our sea

**Building a joint strategy** to tackle climate change in the coastal areas of the Adriatic sea

## Who is involved?

A network of Italian and Croatian partners, including public institutions, universities, research centers, and local authorities, working together to ensure a sustainable future for the Adriatic!

# Join us in making a difference!

# Ready to save the Adriatic coast?

The Adriatic Sea, the shared treasure between Italy and Croatia, faces increasing environmental threats.

Climate change, human activity and pollution are putting its ecosystems and coastal communities at risk.
