

BRIGANTINE

Chemico-physical and multispectral Data fusion
for Adriatic sea monitoring
by autonomous vessel

D 1.5.5

Project's visual identity

Italy – Croatia

Project Acronym	BRIGANTINE
Project ID Number	ITHR0200237
Project Title	Chemico-physical and multispectral Data fusion for Adriatic sea monitoring by autonomous vessel
Priority Axis	1 - Sustainable growth in the blue economy
Specific Objective	1.1 - Developing and enhancing research and innovation capacities and the uptake of advanced technologies
Work Package Number	1
Work Package Title	Increased number of researchers, PhDstudents, new monitoring tool applied to macrophytes observation
Activity Number	A 1.5
Activity Title	Communication campaign about BRIGANTINE' project
Partner in Charge	PP1
Partners involved	PP2, PP3, PP4, PP5
Authors	Dr. Sabina Susmel, Dr. Anna Annibaldi
Status	Draft
Distribution	web

Analysis

In this period a study of Project's visual identity was done discussing with all PPs about possible graphical elements to introduce into the leaflets, flyers and similar material useful for communication activities.

All PPs co-worked on this topic, providing ideas, pictures and paints shared in the project repository (https://drive.google.com/drive/folders/1cl0J0L-sKS29xtrWtkj6xLVEaUfgnKoh?usp=drive_link).

After some discussions and following the guidelines of the Brand manual a title of the project was elaborated in a more amazing form, and a Roll Up and brochure, used for SHARPER's night in Ancona (27th September 2024). These materials are an example of our visual identity for the launch of Brigantine.

Other materials will be produced using this graphical element, personalizing them for the communication activity (kids, general public, ecc).

Annexes

Draft of Title of the Project

Draft of Roll up

DESCRIPTION

BRIGANTINE seeks to study seaweed and seagrass meadow (SSM's) distribution and health in the Adriatic Sea by deploying an autonomous surface vessel (ASV) equipped with sensors and cameras for underwater inspections. The aim is to streamline monitoring activities to more effective local management.
